# WHAT ARE YOUR COMMUNICATION NEEDS ?

The background image shows a dark night sky filled with bright, swirling green and blue lights of the Aurora Borealis. Below the aurora, a small town is visible, consisting of several colorful houses with steep roofs, likely made of wood. Some houses are brightly lit from within, while others are dark. A few streetlights are visible, casting light onto the rocky ground and a paved area. The overall atmosphere is serene and suggests a remote, northern location.
