

# H.P. Semler Machinery A/S

**H.P. Semler Machinery A/S is the sole importer and authorized dealer of Hitachi Construction Machinery, Sandvik Mining & Rock Technology, and Bell Equipment in Denmark, Greenland, and the Faroe Islands.**

With more than 40 years of experience in the construction machinery industry, we offer a wide and versatile range of equipment for the construction and civil engineering sectors.

Our product portfolio includes miniexcavators, crawler excavators, wheelloaders, wheeled excavators, dumptrucks, jawcrushers, cone crushers, and mobile screening plants and much more.

We focus on delivering high quality, reliability, and excellent service — ensuring that our customers receive the right machine, the right support, and the right long-term value.

# Hitachi • Bell • Sandvik — Built to Perform

---

- **Hitachi – Efficiency and Durability**

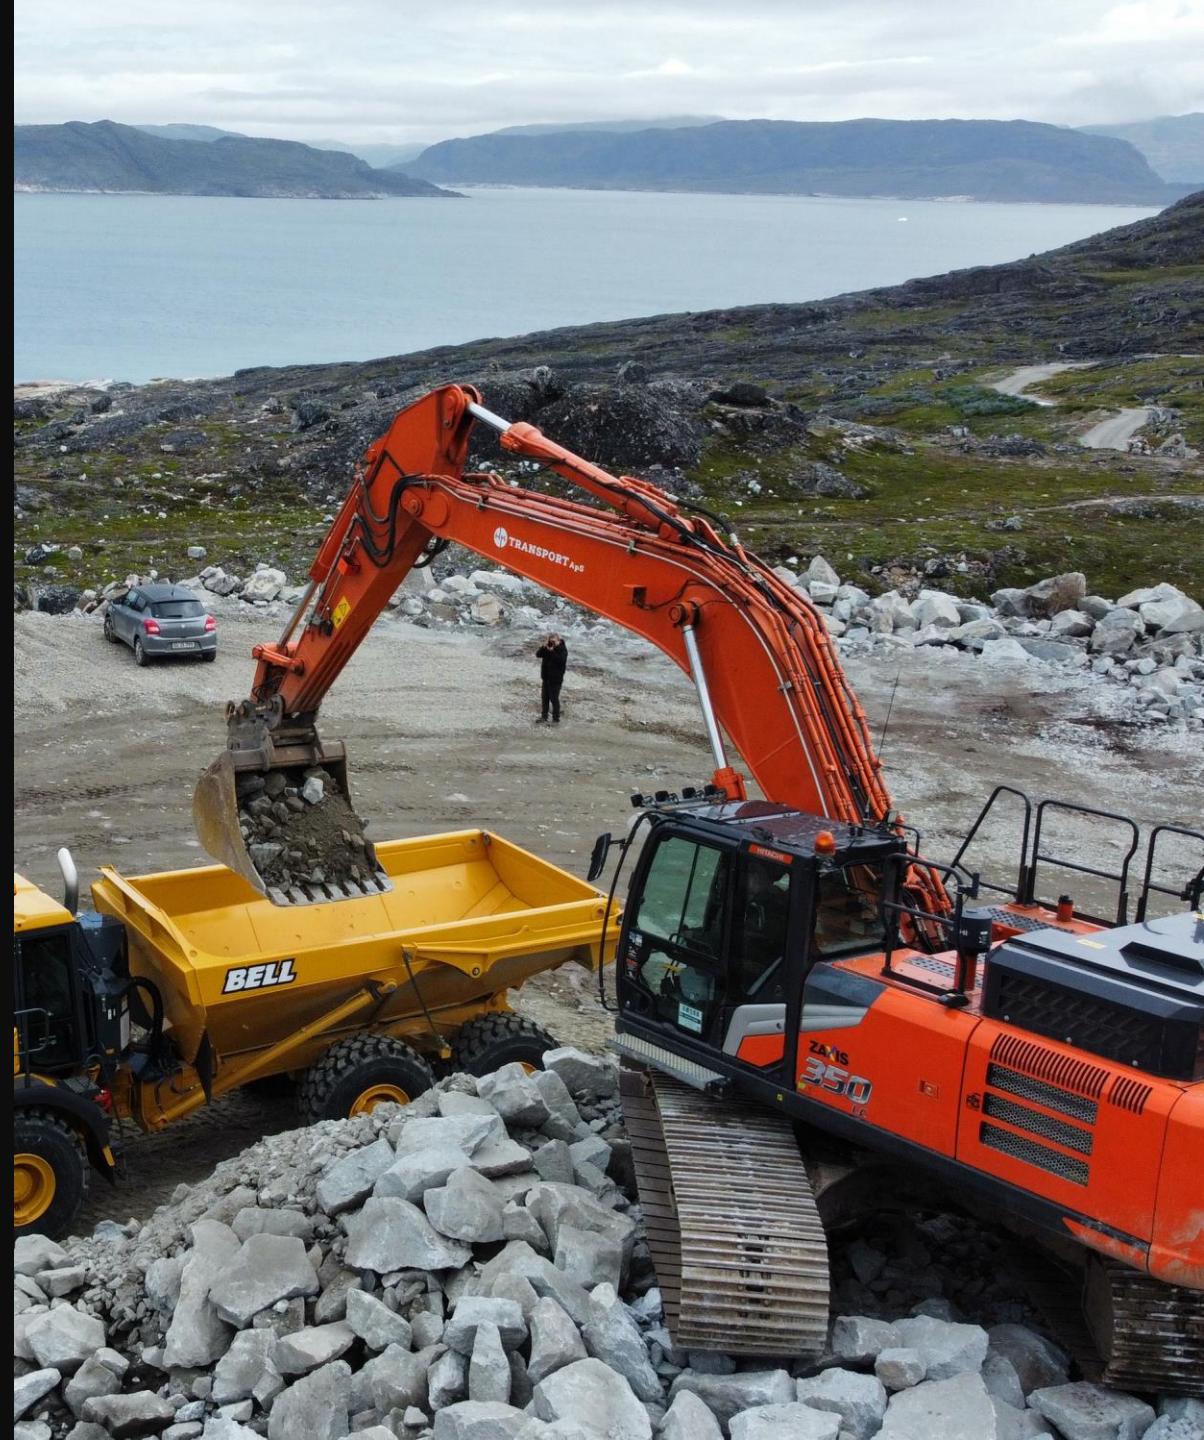

Hitachi Construction Machinery is known for its robust and efficient machines, designed to maximize productivity and minimize operating costs – ideal for construction and heavy-duty projects.

- **Bell – Increased Productivity and Comfort**

Bell Equipment is a leading manufacturer of dump trucks and haulage equipment designed to handle the toughest jobs in demanding terrain – perfect for construction, mining, and infrastructure projects.

- **Sandvik – Innovation and Technical Expertise**

Sandvik Mining and Rock Solutions is globally recognized for its advanced technology and innovative solutions. Sandvik offers a broad range of drilling machines and equipment designed to deliver maximum productivity, safety, and reliability in heavy industrial applications.
